Prayagraj, Uttar Pradesh - 211001

PROFESSIONAL SUMMARY

Computer Science student with experience developing software and IoT-based applications using C++, Python, Java, and SQL. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, Computer Networks, and DBMS. Built scalable solutions involving automation, real-time monitoring, and database-driven systems through academic and personal projects.

EDUCATION

G.L. Bajaj Institute of Technology and Management	Greater Noida, Uttar Pradesh
<i>B.Tech in Computer Science & Engineering (AI & ML) (CGPA: 7.47/10)</i>	2023 – Present
Kendriya Vidyalaya New Cantt Prayagraj	Prayagraj, Uttar Pradesh
<i>CBSE Board - Class XII (Percentage: 80.5%)</i>	2021 – 2022
Kendriya Vidyalaya New Cantt Prayagraj	Prayagraj, Uttar Pradesh
<i>CBSE Board - Class X (Percentage: 76.6%)</i>	2019 – 2020

TECHNICAL SKILLS

Programming Languages: C++, Python, SQL

Web Technologies: HTML, CSS, JavaScript

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks (CN), Operating Systems (OS), Machine Learning, Problem Solving

Tools & Platforms: Git, GitHub, VS Code, Wireshark, MySQL, Kali Linux, Cisco Packet Tracer

PROJECTS

Smart Agriculture Management System | ESP32/ESP8266, Arduino IDE, IoT, Cloud Computing

- Developed an IoT-based smart farming system for real-time monitoring of soil moisture, temperature, and humidity.
- Implemented automated irrigation control using sensor data, optimizing water usage and reducing manual intervention.
- Integrated cloud-based monitoring, data visualization, and real-time alerts to support data-driven agricultural decisions.

Website Blocker Simulator | Python, Flask, SQLite, Bootstrap

- Developed a full-stack web application to simulate website blocking with secure user authentication, website management, and activity history tracking.
- Implemented secure login and registration using password hashing, session management, and role-based access control.
- Built features including CRUD operations, website search, pagination, dashboard statistics, and CSV export using Flask, SQLite, and Bootstrap.

ACHIEVEMENTS

Cybersecurity Virtual Internship | Cisco Networking Academy (AICTE) Jun 2025 – Aug 2025

- Completed a 2-month virtual internship focused on cybersecurity, network security, cyber threats, vulnerability assessment, and security awareness.
- Developed foundational knowledge of secure networking practices, risk management, and cybersecurity principles aligned with industry standards.

Competitive Programming

Solved 250+ algorithmic problems across LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic skills.

CERTIFICATIONS

Cisco Networking Academy: CCNA 1, CCNA 2, CCNA 3, Introduction to Modern AI, Apply AI: Analyze Customer Reviews, Introduction to Cybersecurity, Introduction to Data Science, Python Essentials 1, Python Essentials 2

Palo Alto Networks Cybersecurity Academy: Cybersecurity Foundation, Network Security Foundation, Cloud Security Fundamentals, Cloud Security Automation, Security Operations Fundamental

AWS Academy: Cloud Foundations
